

Eating different brands of food

At the moment, children are staying inside because of Covid19
This will keep us safe and healthy.

The supermarkets are still open to buy food, or we can get a
food delivery.

At the moment, Fast food restaurants e.g. McDonalds, Burger King
are not open.

Because lots of people are staying at home, factories don't have
as many staff so are not making as much food.

This means that the supermarkets are not able to get all
my favourite food at the moment.
